---

[Cheap used BMW London](#) are located at literally hundreds of dealers and home traders throughout the city. I have been looking for an X5 3.0d for a few months now but, despite the vast volume for sale, I cannot settle on a particular vehicle. I have been to a main franchised dealer in Park Lane who were extremely helpful and allowed me to test drive the demonstrator car for two hours. The trouble is, they could not get a good APR on the car finance and the monthly payments were too high. My colleague has recommended Big Motoring World Kent so I am going to visit them.
